OVERVIEW:

As one of the longest running bands in Hardcore/Metal, **No Redeeming Social Value** (NRSV) have seen and done it all in their beer-fueled career. NRSV was founded in Queens, New York City in 1988 and became an international touring sensation with the release of 1996's "Rocks The Party" full length on Striving For Togetherness (SFT) Records.

While playing alongside the hardest bands in the world, they were able to stand apart from the crowd due to their unpredictable and manic live performances, an unusual sense of humor, and absolutely punishing songs.

These beer drinking party animals play really heavy music and their musical output is a perfect blend of punk rock attitude, metal theatrics, and hardcore reality. They've shared stages with **Hatebreed, Iron Maiden, Body Count, Sick Of It All, Chuck D of Public Enemy, Dirty Rotten Imbeciles** (D.R.I.), The Six And Violence, Murphy's Law and countless others. NRSV are hardcore road warriors, having toured extensively in the United States, Japan and Europe. The band was featured prominently in the groundbreaking and award winning N.Y.H.C. Documentary film which is due for a special edition DVD release in 2008.

The NRSV "Still Drinking" CD features a special edition Digipak fold out cover with a full color booklet filled with lyrics, photos and 3 bonus music videos by the band.

HOMETOWN: Queens, New York City
